Schneider Electric LC1D40M7 40A 3 pole contactor with 220V AC coil, ideal for industrial motor control, automation panels, and electrical systems. Reliable performance for contractors, OEMs, and industrial applications.

- ✓ High-quality industrial contactor for reliable switching
- ✓ 40A current rating for medium load applications
- ✓ 3 pole design for stable performance
- ✓ 220V AC coil for efficient operation
- ✓ Long mechanical and electrical life
- ✓ Compact design for panel space optimization
- ✓ Easy installation and maintenance
- ✓ Suitable for automation, HVAC, and machinery control

## Technical Specifications

Manufacturer	Schneider Electric
SKU	SM-SCH-LC1D40M7-40A-CTR
Model Number	LC1D40M7
Rated Current	40 Ampere
Coil Voltage	220 Volt
Frequency	50 / 60 Hz

<b>Number of Poles</b>	3 Pole
<b>Type</b>	AC Contactor
<b>Usage</b>	Motor Control / Industrial Automation

## Product Description

The Schneider Electric LC1D40M7 contactor is a high-performance 40A 3-pole industrial contactor designed for efficient motor control and power switching. Built with durable components and advanced engineering, it ensures reliable operation in demanding industrial environments.

This contactor is widely used in electrical panels, industrial automation systems, HVAC setups, and machinery control. It is ideal for contractors, panel builders, OEM manufacturers, and industrial users requiring consistent and safe switching solutions.

With a 220V AC coil, the LC1D40M7 offers stable operation and seamless integration into various control systems. Its compact design, long service life, and low maintenance requirements make it a preferred choice for both domestic and international markets.

## Compatibility

- Compatible with industrial motor control panels
- Suitable for electrical distribution and switching systems
- Works with overload relays and motor starters
- Compatible with PLC automation panels and control circuits
- Suitable for HVAC systems and compressor units
- Works in manufacturing plants and industrial machinery setups
- Compatible with OEM equipment and custom-built panels
- Suitable for contractors and industrial electrical installations
- Can be used in infrastructure, construction, and mining projects
